Heavy Glass Enclosures

Our heavy glass shower enclosures use 3/8" and/or 1/2" tempered glass that add a level of depth and luxury to every bathroom. Their bold presence and timeless simplicity often give spa-like impressions to homeowners and guests. These enclosures can match any style or personal touch with near limitless options available.

Features

- 3/8" and/or 1/2" glass thickness with high-polished edges
- Domestic aircraft-grade aluminum channels
- Through-glass handles available in a variety of sizes, colors, and styles
- Wall-mount, glass-mount, and pivot hinges in solid brass are available
- Engineered doors, panels, notched panels, and transoms are available
- Customized panels can include channel or clip anchoring systems
- Variety of glass types are available
- Glass protection available
- Hardware upgrades, such as specialty finishes and styles, are available

Wall-Mount Hinge System, Channel-Set Panels

Wall-Mount Hinge System, Channel-Set Panels

Pivot-to-Header Hinge System, Channel-Set Panels

3/8" and 1/2" Euroglide System

3/8" Hydroslide System

3/8" Semi-Frameless Bypass System

Sliding Enclosures

Our world class sliding glass shower doors, available in framed, semi-frameless, and frameless styles, allow easy access when space is limited.

Features

- Engineered for 3/16", 1/4", 3/8", or 1/2" glass
- Towel bars available in frame-mounted (for framed units) and through-glass styles with standard and arch options
- Finger-pull, pull-handles, recessed-knob, and standard-knob options available
- Domestic aircraft-grade aluminum hardware
- Variety of glass types in stock
- Can be engineered to accommodate adjoining panels
- Specialty systems include Hydroslides, Euroglides, and header-less Essence enclosures
- Glass protection available

1/2" Essence System

Framed Bypass System

1/4" Semi-Frameless Bypass System

Framed Enclosures

Simple, classic, and mechanically durable, our framed enclosures are engineered to last a lifetime. From just a simple door to an expanded multi-angle wrap-around enclosure, framed enclosures are often one of the best and most economical design choices a homeowner can make.

Features

- 1/4" glass used for panels – heavier, thicker, and more durable than the industry standard
- Constructed using matching framed door hardware
- Domestic aircraft-grade aluminum hardware
- Variety of glass types in stock
- Glass protection available
- Hardware upgrades, such as specialty finishes and styles, are available

Framed Door and Panel System

Framed Door and Panel System

Semi-Frameless Enclosures

Semi-Frameless System with 6" C-Pull Handle

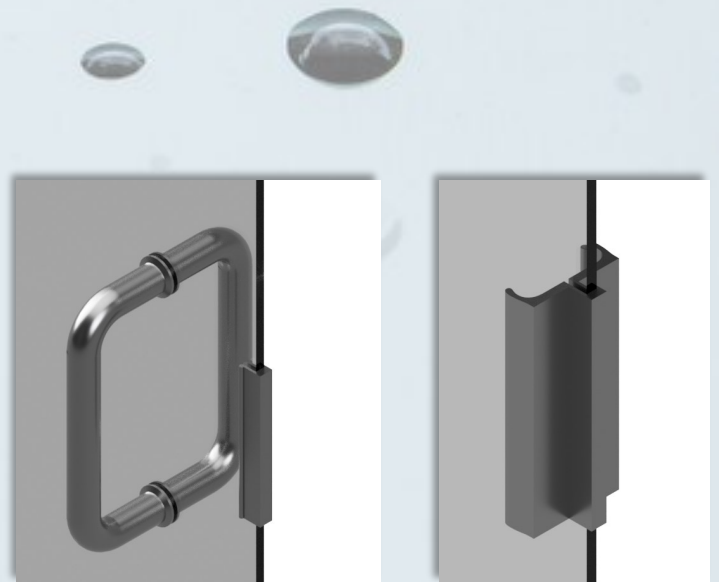

Semi-frameless shower enclosures are often the best way to meld elegant form and practical function at an affordable price. The key feature is the door: our doors open on a concealed hinge that allows a stunning, seamless presentation of the glass. With several handles and a variety of style options available, a semi-frameless enclosure can dramatically improve or compliment an entire bathroom.

Features

- 1/4" glass throughout entire enclosure
- Polished-edge door with concealed hinge
- Through-glass or knock-on handles available in a variety of sizes, colors, and styles
- Domestic aircraft-grade aluminum hardware
- Panels can be engineered to join without hardware creating an aquarium-like feel
- Variety of glass types in stock
- Glass protection available
- Hardware upgrades, such as specialty finishes and styles, are available

Semi-Frameless System with 6" C-Pull / 18" Towel Bar Combo

*Upgraded C-Pull Handle (left)
and Knock-On Handle (right)*

Aquatex

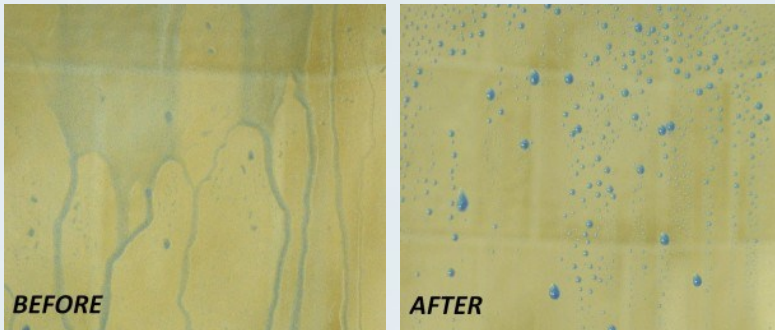

Specialty glass types such as Bronze, Bubble, Glue Chip, Storm, and more are available at select locations—contact one of our Customer Service Representatives or your dealer for availability and pricing.

Properly protecting the surface of glass is a necessary step to ensure your enclosure maintains its brand-new look. Our options for protecting the glass reduce maintenance time dramatically and avoid the use of costly, harsh chemicals during routine cleaning. We offer two options for protection: HydroShield, which carries a five-year limited warranty and is coated on both sides of the glass, and ShowerGuard, which offers a limited lifetime warranty and protects one side of the glass.

HydroShield™
Eco-Friendly Coatings

HydroShield is a protective coating available on all types of glass, keeping residue from building within the pores of the material.

- Reduces maintenance time by up to 75%
- Clear glass is sealed on both sides
- Pattern glass is sealed on smooth side
- Does not alter the texture or appearance of the glass
- When applied at Quality Enclosures, HydroShield has a five-year manufacturer warranty; additional warranties are available
- On-site application options are available

ShowerGuard is a surface protectant permanently applied during the manufacturing process.

- Drastically reduces maintenance of the glass
- Does not alter the texture or appearance of glass
- Ion-beam processing seals one side of the glass surface when the glass is manufactured
- Permanent application – nothing to reapply and nothing to wear off over time
- Available for Clear and Low-Iron glass types
- Lifetime glass warranty

The Quality Promise

Quality Enclosures, Inc. is a family owned and operated company based on family traditions and values. These attributes contribute to our long-standing reputation as a respected leader in the shower door industry. We manufacture and fabricate a complete line of shower and tub enclosures using superior workmanship and the highest quality materials. Whenever we produce a shower door or enclosure, we treat it – from the very beginning of the process to the very end – as if it was going into our own home.

Warranty

Quality Enclosures, Inc. offers a limited 3 year warranty to the purchaser of any new aluminum shower door or any new aluminum shower door part manufactured by Quality Enclosures, Inc. that the product or part shall be free from defects in material and workmanship. Quality Enclosures, Inc. agrees to repair or replace any defective part at no charge to the purchaser within the warranty period. This warranty does not cover damage resulting from normal wear from usage, loss, alteration, accident, misuse or abuse, or lack of reasonable care in either the installation or use of the product or parts.

No responsibility is assumed by Quality Enclosures, Inc. for any special, incidental or consequential damages. If there is any defect in workmanship or material, Quality Enclosures, Inc.'s liability is solely limited to replacement of material as stated. Quality Enclosures, Inc. reserves the right to decide if the defective part or product is to be replaced or repaired. Any and all claims for replacement and / or rework must be pre-approved by Quality Enclosures, Inc.
